SENATORS PLAN TO MEET DEFICIT OF \$333,400,000

Finance Committee Would Increase Bond Issue and **Debt Certificates** 

NEW TAXATION TO RAISE \$248,000,000

Legislation Recommended to Tide Nation Over Fiscal Year

Washington, Feb. 13 .- A Treasury HOUSE AND SENATE SIT ieficit of \$333,400,000 at the end of the next fiscal year is forecast in a report submitted to-day by the Senate Finance Committee, recommending that the Administration revenue bill be amended to authorize a bond issue of \$195,256,000, instead of \$100,000,000

of \$195,256,000, instead of \$100,000,000, and that the authorization of the cer-tificates of indebtedness be made \$500,000,000 instead of \$300,000,000. The recommendation for increases is based on revised Treasury estimates submitted to Congress since the bill passed the House, placing the Federal government's expenditures for the fis-cal year 1918 at \$1,400,000,000. The committee estimates that to meet this overnment bureau of investigation.

It was announced that private detective agencies employed by the railroads would cooperate with Federal officers in guarding terminals.

tal from new taxes and bonds of a-10, 256,000, or \$9,856,000 in excess of absolute needs.

In its report the committee explains that the proposed authorization to issue short-term certificates of indebtedness up to \$500,000,000 is for the purpose of tiding the Treasury over until the new taxes come in. A large portion of the total revenues of the government is now payable during the last month of the fiscal year, and probably more than \$500,000,000 of revenue would, in the opinion of the committee, be collected during June, 1918.

"The income tax, the munitions manufacturers' tax and the excess profits tax are all due and payable in June of each year," the report says. "This is practically as much as will be collected during the entire preceding eleven months. That is, while the disbursements for 1918 may be less than the receipts for that year, still, at certain periods prior to June the Treasury may need these certificates of indebtedness to tide it over."

After a long period of inactivity the Teutonic troops on the Macedonian front took the offensive yesterday in the bend of the Cerna River. A hill position and several encampments east of Paralovo were wrested from the Italians and ninety-two prisoners and dive machine guns were captured, according to Berlin. Paris states that "several surprise attacks attempted by the German troops were repulsed by the Italians." Successful raids by British troops in the Doiran sector are chronicled by the French, who report that the Italians have occupied the village of Ersen, in Albania.

On the Italian front aerial activity was the feature of the day. Italian seaplanes raided the San Rocco navy yard, near Trieste, and dropped bombs on the arsenal and ships at Pola, the Austrian base. After a long period of inactivity the

Every Avenue of Escape for Ottoman Army Dominated by English Guns

[By Cable to The Tribune.] London, Feb. 13.—The British forceon the Tigris front have completely surrounded the Turkish troops west of Kut-el-Amara, according to an official announcement made to-day. After sweeping the enemy back to his last line of trenches in the Dahra bend, west of Kut and between the licorice factory, formerly occupied by General Townshend, and the Shumren bend, the British troops pressed forward for more than a mile across the Dahra

bend.

The British line now reaches from bank to bank on a front of more than three miles. The position of the Turkish army is critical. It may escape northward across the river, but not without severe losses, even annihilation, for every avenue of escape is dominated by British guns.

The official statement regarding these operations says:

FAME AS MINING ENGINEER

#### Professor and Editor Who Died Monday Was World Leader in Profession

John Adams Church, who died at his home, at 697 West End Avenue, on Monday, was one of the most widely known mining engineers in the world.

He was born in Rochester in 1843. His father, the Rev. Pharcellus Church, was Horace Greeley's pastor in Poult ney, Vt., in 1828. Mr. Church received the degrees of E. M. and Ph. D. from Columbia University, where he served at one time as professor of mineralogy and metallurgy in the School of Mines. He completed his studies in Europe. He was editor of "The Engineering and Mining Journal" from 1872 to 1874, and in 1877, as a member of the United States Geological Survey, was as-assigned to study the Comstock Lode, in Newsday

"War is certainly not merely a clash of armies. In order to conduct it prodigious preparations and complicated machinery are necessary. Our two most serious preoccupations at present are railways and artillery. Within the last few mouths we have constructed in the rear of our lines nearly 200 miles of railway. Recently I sent for the managers of the greatest railroad linos in England. I showed them on the spot what had been done and what remained to be cone.
